

Fire tools / Complementi per il fuoco

Opus Focus.

FERRARI

Opera Focus.

—
Secondo il filosofo Eraclito da Efeso, il principio e la fine di tutte le cose è il fuoco. La fiamma trasforma la materia in calore, forgia il metallo, diventa terra e vapore acqueo, in un ciclo che non ha mai fine. La parola “Focus” in latino designa il focolare e per estensione, la casa intera. In inglese, lingua del mondo contemporaneo, questo termine definisce il punto preciso in cui si focalizzano i raggi di luce, le direttrici di una figura geometrica, oppure i pensieri, le aspirazioni ed i desideri. Oggi come migliaia di anni fa, per le menti più illuminate, il fuoco è molto di più di un sistema per riscaldarsi. E’ un fenomeno fisico e spirituale, un centro di attrazione, un emblema domestico dell’universo, un elemento vitale da curare con passione e stile, in ogni dettaglio: insieme a Ferrari.

—
According to the philosopher Heraclitus of Ephesus, fire is the beginning and end of all things. The flame transforms matter into heat, forges metal, becomes earth and steam in a never-ending cycle. The Latin word focus means the hearth and, by extension, the home itself. In English, the language of the contemporary world, this word stands for the precise point on which rays of light, a line determining a geometric shape or our thoughts, hopes and desires are focused. To the most illuminated minds, fire is, today as thousands of years ago, much more than a means of keeping warm. It is a physical and spiritual phenomenon, a focal point, a domestic emblem of the universe, a vital element to handle with passion and style in every detail: with Ferrari.
